**GOALS:**

- Create a controlled environment to train speed fundamentals
- Provide opportunities to work on speed skills like gliding, jumping and terrain
- Create an opportunity to work with new coaches and meet NHARA peers

**MEMBERSHIPS:** Athletes must be current USSA members and VARA members.

**DESCRIPTION:** Athletes will meet in the morning and be assigned a coach and ski group. The day will be spent going through speed progressions in a controlled environment. Please bring GS skis and SG skis if you have them. SG skis are not necessary for participation. This is a one day speed project to develop fundamental skiing skills with bumps, jumps, gliding turns, tuck turns and terrain changes and also training with some of the NHARA U14 athletes. All will have the opportunity to train on a NCAA Championship hill in a closed and supervised environment, where they can learn and gain confidence with all types of terrain and speed. Experienced VARA and NHARA coaches will instruct an age appropriate progression for the athletes. It will be a FUN day of speed skills!
